## ENOT HOLDS N. F. A. HITLESS

Riverview Club Defeats Academy in Five Inning Game-Score 5 to 0-Butts and Magnano Star at Bat.

The Riverview club of the state hospital easily defeated the Academy team in a five inning game on Thursday afternoon at the hospital.

Elks Defeat Moose—Owls Lose to K. Enot, Manager McGraw's pitching and held the High School boys hitless and had his benders working in mideason form.

The State Institution team had no trouble in finding Purvis and right from the start they scored. Chase secured an infield single and took third on Butts' hit to left. Purvis

at the Aetna alleys, Thursday eving. The K. of C. defeated the O Sylvia broke the league held Tuttle with 133, rolling 137. scores:

Moose. passed McGraw. Three men on bases in the first inning unnerved Purvis and he heaved a wild one allowing Chase to score. Howard hit to LeClaire who picked up the ball but did not know what to do with it.
In the meantime while Butts scored
and Howard reached first safely.
Counihan dropped the ball and did
not recover in time to catch McGraw

In the fourth the Hospital annexed two more runs. Butts led off with a hit through short and scored when Magnano drove a slashing two sacker to deep left center. Manager Mc-Graw helped the cause along by singling to left scoring Magnano.

The Hospital team have arranged a game with Williamntic for Saturday and as the Thread City is never lacking for baseball talent, the fans are anticipating a good game. The score:

ACTIVE, STRONG MARKET

Spirited Demand for the More Promi-

nent Railway Shares.

New York, April 27.—A spirited de-mand for the more prominent railway shares, which doubtless bore some re-

lation to yesterday's favorable divi-dend action by the directors of the Norfolk and Western road, was a fac-

tor of considerable importance in to-day's active and strong market. Prac-tically every division of the railway group scored substantially in the day's dealings, Reading and Union Pacific being the outstanding features at max-

imum advances of 4 1-2 and 3 3-8 respectively.
Coalers also were strong, probably

in connection with the more encour-aging views expressed by the opera-tors and their employes, but improve-

ment was no less pronounced in various trunk lines, grangers and cotton carriers. Profit-taking and adverse

foreign news caused temporary reac-tions, but the market rose superior to these developments, leading shares be-ing at their best in the final hour.

United States Steel led the seasoned industrials and for that matter the en-

tire list, in respect to activity and advanced 1 1-2 to 8 3-4. Other industrials and equipments, including the

better known war contract issues and motors, were higher by 3 to 6 points. Coppers came forward in the after-noon, the increased dividend on Greene

Cananea stimulating interest in all the

metals, including zinc shares.

Mercantile Marines were less con-

spicuous than recently, demand for

those shares being less keen, now that it is believed that control has passed

to new interests. Mexicans kept pace with other specialties and the new su-

gar stocks were again active. South Porto Rico advancing 10 to 210 and Cuban-American 15 to 225. Bethlehem Steel was lightly traded in at a gain of 10 to 449. Total sales amounted to

Union Pacific's March earnings showing a net gain of \$1,612,000 were in striking contrast to those of Baltimore and Ohio, which disclosed a net loss of \$435,000, due, however, to the unusual increase of \$2,352,000 in operatin gexpenses. Foreign exchange markets were quiet but francs continued to advance and marks recovered.

ued to advance and marks recovered some of yesterday's weakness, while rubles were further disposed to ease

off. The statement of the Bank of England disclosed increased gold hold-ings of almost \$5,000,000. The state-

ings of almost \$5,800,000. The statement of the Bank of France was distinctly unfavorable, showing a loss of over \$19,000,000 of the precious metal. Bonds were steady to strong, but dealings showed no expansion. Total sales, par value, aggregated \$2,835,-

000. U. S. bonds were unchanged on call.

> Production of Fuller's Earth on the Increase.

The fuller's earth industry in this country in 1915 will show a healthy condition, according to reports received by the United States Geological Survey. The industry is comparative-ly recent, the first production having been reported in 1895 from Florida, been reported in 1895 from Florida, though fuller's earth was discovered a few years earlier in Arkansas. The production in 1915 was 47,901 tons, valued at \$489,219, which was an increase of 6,920 tons and \$85,572 over 1914. On the other hand the imports of fuller's earth, which were 19,441 ton, valued at \$162,493 in 1915, decreased 5,535 tons and \$42,590 compared with 1914. and \$42,590 compared with 1914. The marketed production in 1915 was therefore more than twice as great as East Berlin-R. O. Clark now has his the imports, and the value of the do-mestic earth marketed was more than the imports, and the value of the domestic earth marketed was more than
the brick yard. This will do away
with a number of teams in hauling
clay from pit to machines.

Hartford—Mr. and Mrs. John O.
Enders and daughter of Hishland
street have returned after spending a
few days at their summer home at
Pleasure Eeach, Waterford.

the imports, and the value of the domestic earth marketed was more than
three times that of the imported earth that of
the imported. Fuller's earth is now
used principally in clarifying mineral
and vegetable oils and fats and greases,
to right the reported of the domestic earth marketed was more than
three times that of the imported earth and the value of the domestic earth marketed was more than
three times that of the imported earth and t way. Six states reported production of fuller's earth for 1915, Arkansas, California, Florida, Georgia, Massacantornia, Florida, Georgia, Massa-chusetts, and Texas. The state lead-ing in production is Florida, which re-ported nearly 15 per cent of the output for 1915. Georgia was second and Arkansas third.

American Optical Glass. The manufacture of American op-

tical glass is about to be begun on a commercial basis, a large factory gun experimentally by the Rochester firm a few years ago, and when the war broke out this had just demonstrated its success, so that its expan-sion would have come along in the regular order of things. The necessity for a plant of this kind in this coun try has been forcibly demonstrated b war, which has completely cut off the supply of optical glass, which cam

belligerent countries.

Some Yankee in 'Em. American soldfors in Mexico are daughter, Miss Marionette Morse, to Robert Strong Wadsworth, Yale 1909, of Warehouse Point.
